Discover the custom-built reception !

Since 2004, FRANCE HOTESSES has been working on the customisation of its services, seeking to go beyond the classical reception and to put forward a real custom-built offer. It is this added value that will guarantee the high quality reception services for each and every one of our interventions.

The human dimension has a special interest at FRANCE HOTESSES. Thanks to our standardized process, we recruit, train and individually supervise every host and hostess in order to guarantee an excellent service and promote your image.

Whatever your needs, we will be pleased to offer you the solution that will best fit your projects.

I personally commit to the success of our collaboration.
